

Hiding a Product from Display

If you don't want a product to be shown in the store anymore, we suggest you to hide it rather than deleting it. The product will remain in your inventory, and you can select to show the product at any time.

Deleting a product means you delete it permanently, and you would have to add that product again later if you want it to be in the store again.

To Hide a Product:

If you do not want a product to display in your store, but you don't want to delete it permanently, you should hide the product instead.

1. Login to your [Workspace](#)
2. Click on **Products** from the left menu.
3. You will see your list of products. Click the **Edit** icon next to the product you wish to hide.
4. Under "Product Attributes", find **Show this product in the store**. Change from "Yes" to "No".

PRODUCT ATTRIBUTES

PRODUCT TYPE *	tea	BRAND/MANUFACTURER NAME *	Original Chai
SHOW THIS PRODUCT IN THE STORE	No	TAX RATE	Apply Taxes
PRODUCT CLASS	Physical Product		
RELATED PRODUCTS			
1.		2.	
3.		4.	

SEO OPTIONS
