

# Offering Discounts on Shipping

You can offer discount coupon codes to your customers which apply a discount on the shipping rates. Your discount could be a percentage of the shipping fees, or a straight monetary reduction on the total shipping cost.

For example:

- 25% off shipping, or
- Rs. 50/- off shipping fees

To learn how to create a discount coupon, read this article on [Creating Discount Coupons](#).

**i** NOTE: when you are creating the coupon, select "Shipping" in the relevant pulldown field, to apply the discount to the shipping fees.

## ADD A COUPON

COUPON NAME [Generate](#)

COUPON TYPE

Take 25 % Percent off shipping for All Products

COUPON DETAILS

Coupon starts  and ends  and can be used 0 times.

Leave dates blank for no start/end dates. Leave number of times as zero for unlimited uses
